Dear guests! When deciding what to put in our gift registry, what we did need to "start" our new life as married couple we realised that we had a lot of the things that newly weds need. So we decided to use Weddiness so we could show you the less conventional things we still need so you could choose which you want to help us buy. You will find both material things and activities that we would like to experience during our honeymoon. Just look through the things we need and contribute any amount you want to anything you want. The money from Weddiness will be transferred directly to our bank account. See you soon!
